Why Choose United Concordia's Dental Plan?

Expertise

- 40 years of experience in group dental insurance.¹
- More than 8 million members, including over 300,000 members in FEDVIP.¹

Commitment to Oral Health

Recent research suggests a connection between oral health, particularly gum disease, and certain medical conditions such as heart disease, stroke, diabetes, respiratory disease and some complications of pregnancy. That's why:

- United Concordia's benefit plans are designed to encourage members to keep up with their preventive dental care, and to help them plan for the potential costs of more complex dental procedures.
- Our online Dental Health Center at www.uccifedvip.com offers valuable dental health information to help educate you and your family on the importance of dental health and proper preventive dental care.

Large, National Network of Dentists

- You may choose any dentist, even if the dentist is not in our network. However, there are many **benefits of visiting a network dentist**:
 - ✓ **Saves you money**—Our network dentists accept our negotiated fees as payment in full for covered services, so they cannot bill you for the difference between their regular charges and our negotiated fees. Also, United Concordia pays a greater percentage of your dental bills when you visit a network dentist. See **Savings Example** below and **Covered Dental Services** chart at right.
 - ✓ **Saves you time**—Our network dentists agree to file your claims, so it's one less thing for you to do.
 - ✓ **Provides peace of mind**—All of our network dentists undergo a thorough review through our quality assurance process and routine verification of their credentials.
- Our network has more than **150,000** access points across the country¹, and we work hard to ensure that there are network dentists in the locations where our members live and work, including both urban and rural areas.
- Finding a United Concordia network dentist is easy. Just use the **Find a Dentist** online search tool at www.uccifedvip.com.
